

I am a subscriber of XM Radio, and I benefit from listening to XM Satellite Radio and its traffic and weather channels. I subscribe to satellite radio because it gives me variety and quality that I can't find on regular radio. I made a decision to pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I find it hard to believe that the FCC would even entertain the idea of listening to the lobbyists. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
